

Senior Project-

Each senior will complete a senior E portfolio; the points (motivation) will be applied to the class they choose. We can all make space in our grade totals on *Power Grade*. English teachers are a natural because most of our students have at least one English class. Not all of them do though, so we will need to get more teachers on board. The purpose is for each student to walk out of Valley High with the tools they need and proof of their accomplishments. Students should be encouraged to save their work in their computer folder; they should keep samples of good work from as many classes as possible. We have many digital cameras; students can take photos of projects or scan completed papers into the computers. At the end of the year during CRT testing seniors and some juniors will assemble this work into a final folder and we will burn it onto a CD.

Teachers on the project would manage the kids in the various labs and help with the portfolio or testing.

Project should include:

- = Proof: good work, awards etc.
- = Resume
- = Process paper
- = Lots of finished work
- = Test scores
- = Goals
- = Self reflection essay

Narrative

- Essay
- Fiction
- Photography
- Photography of art
- Tests
- Projects- or pictures of
- Letters of recommendation
- Web pages
- Power points
- Scanned awards etc.
- Ideas?

Proof could be:

Poetry

Drawbacks-

Space?

Time?

Rewards:
