

Your Complete Summer School Solution

CompassLearning Odyssey

With personalized K–12 curriculum, comprehensive professional development services, and a track record of proven results with summer school programs, we take the stress out of designing a curriculum that will energize, engage, and motivate students.

How can you get your students engaged and eager to learn? Award-winning Odyssey® curriculum from CompassLearning®.

- Build lesson plans customized for shorter summer school schedules
- Assess student abilities and identify strengths and weaknesses immediately
- Automatically prescribe individualized learning paths filled with engaging activities based on each student's unique needs
- Report on student progress throughout the summer school program, making adjustments as necessary
- Take advantage of a full range of K–12 courses
- Address learning objectives with software content that is fully aligned to all state standards

How can you get your teachers up to speed quickly and help parents stay connected?

- Coaching, mentoring, and modeling in the summer school classroom
- Teacher support materials, lesson plans, and offline activities to complement the Odyssey curriculum
- Complete program support — in person and via the web
- Parent access to activities and reports

Call your sales representative today and learn why schools across the country are using CompassLearning Odyssey for their summer school programs.
