What educators are saying about The Writer

"First off let me say "WE LOVE THE WRITER!!!!" The students and teachers have fallen in love with them! The instruction book is easy to understand and the videos are super in explaining how to use them. Thanks for a wonderful product! "

Beth Comella – Euchee Creek Elementary School

"The improvement we've seen in our students' keyboarding skills has been dramatic!"

Sherry Detrick – Pine Street Elementary

"We considered laptops, but the cost and complexity just didn't make sense. Why spend so much when you can get a powerful tool like The Writer into the hands of so many students? We use our Writers ever day."

Laura Boudreau – 5th grade teacher

"I have made The Writer a central part of my writing program. I am convinced The Writer is helping my students to become better writers."

Wayne Peterson – 6th grade teacher, Lewis Middle School

"I've never seen such positive results."

Josh Hegg – Eagle Crest Academy

"Our Writer Keyboarding Mobile Lab has enabled us to free our computer labs for reading instruction, remediation and research."

Glynda Todd – Boiling Springs Elementary School

"We were really shocked at how quickly our students established good technique. Even the teachers who are not techies are enjoying the program...kids just love it."

Kim Droseller – Technology Coordinator

"Our teachers have really enjoyed The Writers. We thought there would be a lot of teacher time used in implementing the program. We found just the opposite. With so many other things going on it was nice to implement a program that was easy yet showed results. We have been using them nearly every day since March and we see great results in speed, accuracy and technique. When students go to the computer lab their hands go naturally to the homerow keys!"

Michael Parks – Teacher/Assist. Principal – Westfield Elementary

"The progress has been amazing. The kids love their Writers. We use them for science and social studies. Their writing is far more detailed and their vocabulary more advanced."

Kim Collazo – 5th grade teacher

"We love The Writer, our kids fight over them!"

Barbara James – Principal, New Castle Elementary.

"My 4th grade students are having GREAT SUCCESS with The Writer! I am seeing such impressive results in comparison to our other keyboarding software in the lab, and we have only been using it for 6 weeks! I am looking forward to getting into the writing activities once we complete the keyboarding program."

Debbie Daniels – Maize, KS

"The Writer's Homerow Advantage and Shift Key Advantage are so beneficial in supporting and reinforcing proper homerow finger position and the proper use of the shift key. I want to ensure that my students are consistently practicing touch-typing correctly in order to obtain both permanence and perfection. These two features of The Writer have certainly helped my students reach this end."

Craig Albrecht – Herington Middle School

These educators have discovered the convenience, the power, and the effectiveness of The Writer . . . you can too.
